

## Make the most of a connected restaurant in the connected world

Digitally transform your operations with the EcoEnergy Insights Connected Restaurant Program

Every restaurant or restaurant chain is unique, and so are the business goals associated with it. Your restaurants deserve an intuitive solution that understands the unique context of how they operate. Our Connected Restaurant Program that leverages the power of the CORTIX™ Building IoT platform, is designed to do just that. Manage your restaurants with the CORTIX platform that gives you the power to optimize restaurant operations at your fingertips. The application, together with the support and analytics advisory offered by our team of data scientists and domain experts, enables you to:

**Improve  
Competitiveness**

Measure and track Key Performance Indicators (KPIs) for operational excellence

**Seamlessly Integrate  
IoT Devices  
And Equipment**

The CORTIX platform is technology-agnostic, allowing easy integration with different kinds of equipment

**Increase  
Profitability**

Continuously reduce restaurant's operational cost

**Deploy  
Actionable  
Insights**

Receive actionable insights to make informed decisions that affect restaurant behavior

**Track Total Cost  
of Ownership**

Evaluate TCO of equipment using advanced data analytics

**Exceed Guest  
Expectations**

Focus on guest experience, food safety and quality

## Success story

An international fast food chain deployed the connected Restaurant Program in the U.S.A

## Results across a year of the engagement

-22 months to payback	-25% improvement in food storage compliance
-24% reduction in HACCP count	-14% guest and employee comfort enhancement
42,000 kWh reduction in consumption per restaurant	11% electricity savings
17% gas savings	\$4,000 saved per restaurant

## Recognition

Frost & Sullivan positioned EcoEnergy Insights in the Visionary section of the 2019 Frost Radar® chart.
